RUPESH THAKUR

JUNIOR SOFTWARE DEVELOPER

9888667631 | thakurrupesh5477@gmail.com | Kolkata, West Bengal
GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on exposure to full-stack web development, backend APIs, database workflows, application testing, and IT operations. Experience with React.js, Node.js, Express.js, MongoDB, FastAPI, PostgreSQL, Streamlit, Java, and practical computer networking support through internship and project work. Seeking an entry-level Junior Software Developer role focused on building reliable applications and maintainable features.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, C
Frontend: React.js, HTML, CSS, Tailwind CSS
Backend: Node.js, Express.js, FastAPI, Streamlit
Databases & Auth: MongoDB, PostgreSQL, JWT
IT & Tools: Computer networking support, hardware troubleshooting, Git, GitHub, Microsoft Excel, VS Code
Practices: REST API integration, debugging, data validation, technical documentation

PROFESSIONAL EXPERIENCE

Operations & Data Analytics Associate / Vidushi Fellow | Drishtee Foundation
Jul 2026 – Present
- Collect, validate, clean, categorize, and consolidate field data from surveys, interviews, and market visits.
- Conduct village and local-market mapping, documenting retailers, wholesalers, product categories, prices, raw materials, and business opportunities.
- Use Microsoft Excel to maintain structured datasets, track milestones, review baseline information, and prepare operational reports.
- Analyze rural enterprise, community-group, product, and income-generating activity information to support operational assessments.
- Prepare reports and presentations summarizing field findings, product costing, market observations, and milestone progress.

Software Developer Trainee Intern | IDEAS Technology Innovation Hub, Indian Statistical Institute, Kolkata
Jan 2026 – Mar 2026
- Contributed to the Tripura Consumer Price Index (CPI) project, supporting a Flutter mobile application and a React.js admin portal.
- Worked on backend functionality using FastAPI and PostgreSQL for data storage and management.
- Organized market-survey data through browser-based forms and supported data accuracy and consistency.
- Built a Streamlit-based testing portal and created Excel-based reports from supplied datasets.
- Prepared user manuals and technical documentation for backend administration and mobile-app workflows.

IT / Computer Networking & Web Development Intern | Airports Authority of India (AAI), Kolkata
Jul 2024 – Sep 2024
- Supported on-ground and office-based computer networking and day-to-day IT operations.
- Assisted with computer hardware setup, connectivity checks, and basic troubleshooting.
- Contributed to web development tasks as assigned within the office environment.
- Supported server/network-related operational tasks; specific technologies are not listed because they have not yet been confirmed.

Java Intern | Oasis Infobyte
Aug 2024 – Sep 2024
- Developed Java-based applications while practicing core programming and object-oriented programming concepts.
- Strengthened debugging, logic-building, and code-quality skills through hands-on project work.

PROJECTS

Sales Analytics Dashboard | Python, Pandas, Streamlit
- Interactive sales analytics project to explore sales data and visualize business performance.
- GitHub: https://github.com/R841927/sales-analytics-dashboard

E-commerce Sales Analysis | Python, Streamlit
- Interactive app to explore e-commerce sales data and review business performance.
- Live demo: Open app
- GitHub: https://github.com/R841927/ecommerce-sales-analysis

Business Performance Dashboard | Power BI, DAX, Python/CSV
- Business intelligence dashboard with revenue, profit, orders, and profit-margin KPIs.
- Visuals cover monthly and regional revenue, category profit, sales channels, product performance, with year, region, category, and channel slicers.
- GitHub: https://github.com/R841927/business-performance-dashboard

College ERP System | MERN Stack: React.js, Node.js, Express.js, MongoDB, JWT
- Developed a full-stack ERP application with authentication and role-based dashboards.
- Implemented backend APIs and integrated the frontend with database-backed workflows.

EDUCATION

B.Tech, Computer Science & Engineering | Aliah University | 2025 | CGPA: 7.12
Class XII (WBCHSE) | TAV | 2021 | 68%
Class X (WBBSE) | SKV | 2019 | 53%
